

Faculty and Research Interests

鄧惟中

Wei-Chung Teng
Associate Professor

Phone: +886-2-27301067
Fax : +886-2-27301081
Email: weichung@csie.ntust.edu.tw

Education

DEng, University of Tokyo, Japan, 2001.
MS, National Chiao-Tung University, Taiwan, 1994.

Experiences

2014~present Associate Professor
Dept. of CSIE, Taiwan Tech
2013~present Director
System & Information Section, Library, Taiwan Tech
2003~2013 Assistant Professor
Dept. of CSIE, Taiwan Tech
2012~present Executive Director
Consumers' Foundation, Chinese Taipei
2008~2012 Deputy Secretary General
Consumers' Foundation, Chinese Taipei
2002~2003 Manager
R&D Dept., Box Solutions Corp.

Research Areas

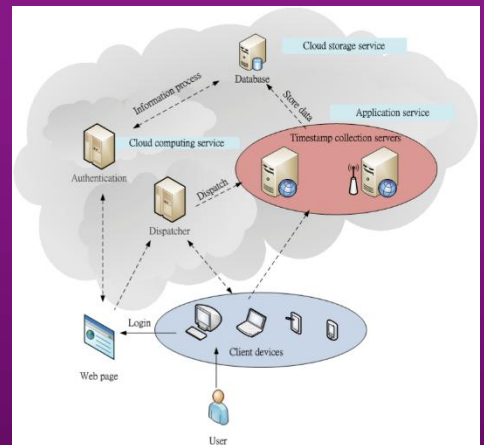

Virtual reality & telepresence, motion processing of humanoids, network communication protocols, information security

Current Research Projects

- Clock Skew Based Client Device Identification as a Cloud Service (sponsored by MOST)
- A Study of World-in-Miniature based 3D User Interface for Telepresence Robots
- MapXplorer: A Handheld Control for Map and Street View Navigation
- Research and development of a detection module for malicious program behavior (sponsored by III)

Research results

- Use clock skew technology to identify user devices for services in the clouds

- An immersive system to navigate towns in Google maps using both street view and interactive map
